The Muslim Brotherhood Tried to Kill His Family – What Happened Next? With Pastor @MartinSedra

(May 15, 2026)

FRANK:

Ladies and gentlemen, if you do not want to hear the truth, this particular podcast is not going to be for you. You know, Thomas Sowell famously said, when you want to help people, you tell them the truth. When you want to help yourself, you tell them what they want to hear. We are not going to tell you what you want to hear today. We are going to tell you what you need to hear because it is the truth.

In fact, my guest said this.

[MARTIN]:

Islam is not a religion. It is a political movement. Egypt was a Christian country and it was conquered by Islam. Yemen was Christian, and Islam conquered it. Morocco was Christian, and Islam conquered it. Iraq was Christian, and Islam conquered it. For 1400 years, Islam has been conquering countries. And the next big dog on the list is America.

If the American church does not wake up, not in fear, but wake up to preach the truth of the Bible, you will lose this country. The devil wants America, but we want Jesus to reign here. If you want Jesus, you've got to reject Muhammad. If you want the Bible, you've got to reject the Quran. If you want the Ten Commandments, you've got to reject Sharia law. If you want churches, you've got to reject the mosque. You will either have Jesus or Muhammad, but you can't have both.

FRANK:

All right, now, who is that wishy washy preacher? It is the great Martin Sedra, ladies and gentlemen. Here he is, all the way originally from Egypt, but now he preaches across the world. But he has a church in Australia now, and his family was almost murdered by the Muslim Brotherhood. We're going to unpack all that today. Martin, it's great to have you on the show.

How are you?

I am so good. It is such an honor to be with you, Frank. You are an inspiration to us. You have blessed us, our family, our ministry. Thank you so much for having me.

FRANK:

Well, brother, we met at a couple of TPUSA events, and I could tell you're a man who loves to preach the truth, and you're fearless about it. You need to be fearless about it because your father was a pastor in Egypt, where you grew up.

What happened?

MARTIN:

We grew up in Egypt. You know, Egypt 1400 years ago, was a Christian country, believe it or not. My country, Egypt, was 90% Christian, and we had zero Muslims in the country. But 1400 years ago, Islam came in our country. They burnt our churches, killed our pastors, raped our women, took our kids. And now Christianity went from 90% of the country to 10% of the country.

And Islam went from being 0% of the country to now being 90% of the country. And my family grew up in Egypt as a Christian minority, that 10% still standing in Egypt. And my dad, when he got saved, he started preaching to the Muslims because he really desired for the Muslims to come to Christ. And thousands of Muslims were coming to Jesus, repenting of their sin, leaving Muhammad, leaving Islam, and under apostasy laws, if you preach to a Muslim and they leave Islam, they die.

And the pastor that converted them must die. And really, the pinnacle of our testimony was the Muslim Brotherhood was warning our family, stop preaching Jesus, or we're going to kill you and your whole family. My dad kept on preaching. He was bold and courageous, and did not back down. But what happened was my dad was preaching one day in a living room to a bunch of Muslims. And at the end, a Muslim lady heard the gospel and gave her life to Christ.

She took off her hijab, came to Jesus Christ, and my dad didn't know that her husband was a leader of a Muslim terrorist group. Her husband was a leader of a Muslim terrorist group, and when he found out that my dad made his wife a Christian, he was furious and wanted to take revenge on my dad. And the way he was going to take revenge, he was going to kidnap my brothers, he was going to behead them, put them in a van, behead them, and then put their body in a bag and send it back to my dad's house to teach my dad a lesson.

Don't preach Jesus again. And that's how Muslims do it. They'll kill your family to teach you a lesson to not preach Jesus. So the Muslim Brotherhood leader, when he found out my dad converted his wife, he came to the bus stop where my brothers go to school with two Muslim men. They came in a van, and as they see my brothers, my brothers were five and nine years old, they see my brothers, the Muslim men, try to get out of the van, kidnap my brothers, and behead them.

But they felt frozen in a van, unable to move. My brothers get on a school bus. The school bus leaves, and the Muslim men unfreeze again. This time, they don't know what's going on. They didn't understand that this was an angel. It was a supernatural protection from God. So the next day, the Muslim terrorist leader came with two bigger men to kidnap my brothers and behead them at the bus stop to teach my dad a lesson. This time, they come to the bus stop, they're in the van, they see my brothers.

But this time, Frank, the Muslim Brotherhood men, they get out of the van, and they're standing right behind my brothers, 5 and 9. And as they go to kidnap my brothers, to behead them, and put them in a bag, the Muslim Brotherhood leaders felt a supernatural hand. An angel tied their hands behind their head. Both Muslim men are unable to move. Their hands are behind their head. My brothers get on a school bus, and the school bus leaves, and the Muslim men unfreeze again.

Now, the Muslim leader knows something is going on. He goes to my dad's house. He knocks on the door. He sits with my dad, and he tells him the story of how he tried to kill his children. And the Muslim terrorist leader lands by telling my dad this. He tells my dad, I tried to kill your children, but your God protected them. And your God is the one true God. And that Muslim Brotherhood leader, Frank, becomes a Christian in that living room, gives his life to Christ and gets baptized.

So that's our story. Now we're in Australia preaching Jesus Christ and warning America about the dangers of Islam.

FRANK:

Now, that's 2006, this happened, so 20 years ago. You're a very small child at that point. What happened to your father? Did he leave Egypt? When did you go to Australia, and what are you doing now?

MARTIN:

So now the pinnacle of that story happened when our address got published in a Muslim newspaper.

In 2006, our address got published in a hit list. It's a Muslim newspaper in Egypt where they put addresses of pastors that they want to take out. The moment our address got published, my dad felt the prompting of God that we got to get out of the country. So my dad went to Australia, here, while he did our paperwork, and we applied as religious refugees. We waited a year to get approved. In the meanwhile, we escaped to Thailand.

We lived in Thailand for one year while our paperwork was in the process of getting approved. Then we finally got approved, moved to Australia, and thank the Lord, we thought our life was over when we moved to Australia. But little did we know that God was just beginning our story. We thought we were refugees escaping Islam, but now we view our testimony as we are reformers here to fight against Islam. God, flip the story upside down.

And now, instead of fleeing Islam, we are fighting Islam. Traveling across the world, preaching Jesus Christ, warning America against Islam, and seeing revival happen across the West.

FRANK:

I can already hear people thinking right now, but Islam is a religion of peace. We've been told it's a religion of peace. It's just a few radicals that do these kinds of things. How do you respond?

MARTIN:

Islam masquerades as a religion of peace. I don't blame the Americans.

America has never experienced Islam. The only Islam Americans know is the Islam that lives in America. The problem is you need to really encounter true Islam. And the only way you encounter it is by going to the Middle East. What I find fascinating, Frank, is the only people that love Islam are the liberals who have never experienced Islam. The only people who want Islam are the white liberals who have never lived in the Middle East, who have never been persecuted under Christianity.

But here I am, coming from Egypt, escaping Islam. I'm telling America that Islam is not a religion of peace, but a religion of war, death, and violence. If Islam is a religion of peace, why are 99% of terrorist organizations under the name of Islam? If Islam is a religion of peace, why is every

terrorist attack done by Muslims? And why does Muhammad command Muslims in the Quran to kill the infidel?

This is the problem. We can say Islam is religion of peace as much as we want. History goes against that, the Quran goes against that, and the facts go against that statement. Islam is not a religion of peace.

FRANK:

There are a few conflicting verses in the Quran. Talk about abrogation for a minute, Martin, because there is this doctrine of abrogation.

MARTIN:

So this is the thing. The first 12 years of Muhammad's ministry in Mecca were very peaceful.

Muhammad, when he started Islam, he didn't have any followers; he didn't have any power. So he preached a nice, tolerant message. That's where the Quranic verses and the Quran come that the peaceful, the tolerant. But after 12 years of Muhammad failing in his ministry, he moves from Mecca to Medina and he begins to change his message from tolerance and peace to violence and war. And that's where abrogation comes in.

It's that the later verses in the Quran cancel the earlier verses. And that's what you call, by the way, the Meccan period of Islam and the Medinan period of Islam. The Meccan period and the peaceful period. The Medina period come later, which is the period of war and jihad. And unfortunately, Muslims don't believe in the Meccan period anymore. They believe in the Medina period. Let's go to war, let's establish jihad.

Muhammad was a warlord and a political leader, whether they like it or not. He was a failure at the beginning, and then he became a political leader.

FRANK:

And since 632, when Muhammad died, ladies and gentlemen, there's been a conquest idea in Islam. The idea that Islam, of course, means submission, to take over non-Muslim lands and make them Muslim lands.

And we're going to talk about that with my guest Martin Sedra and his website, by the way, martinsedra.com. S E D R A. We'll put that in the show notes. But what about violence in the Old Testament? I mean, if we're going to say well, look there's violence in the Quran, but there

is violence in the Old Testament, what do we say about that? We're going to cover that when we come back, and so much more with my guest Martin Sedra.

Again, his website martinsedra.com. He's in the U.S. quite a bit. You might see him out there on the road. We'll be back in just a couple of minutes right after the break. I'm Frank Turek. Don't go anywhere.

Ladies and gentlemen. You're not feeling well, so you go to the doctor and he runs some tests. He looks at you, and he says, I got some news for you. Question, do you want him to tell you what you want to hear, or do you want him to tell you what you need to hear? Do you want to hear the truth? I think in that situation, you're going to say, doc, give it to me straight. If we're going to fight this thing, I got to know the truth. Well, that's what we're telling you today right here.

We all might have friends that we think are great people, and they happen to be Muslims, and maybe they are great people. The problem is Islam as a movement is really much more than a religion. It's a political movement that for 1400 years has been putting people into submission, taking away freedoms, and even doing forced conversions.

My guest today, Martin Sedra, saw that personally, when he lived in Egypt. Early on in his life, a couple of his brothers were almost murdered because of that. If you're just tuning in, you got to listen to the I Don't Have Enough Faith to Be an Atheist podcast to hear the first segment. Martin told us that story. But Martin, I got to ask you this because it's going to come up. There's violence in the Old Testament too. Kill the Canaanites.

What do you say? How does that compare with jihad in the Quran?

MARTIN:

It is crazy when people compare the Bible to the Quran or when they compare our founder, Jesus Christ to Muhammad, we cannot compare them at all. Muhammad said, kill the infidel. Jesus said, love your enemies. Muhammad, before he died, said, may Allah curse the Jews and the Christians. Jesus before he died, said, father, forgive them for they don't know what they do.

Jesus and Muhammad are different people. The Bible and the Quran are extremely different. And Old Testament violence and Jihad are extremely different. Old Testament violence was commanded by God to the Israelites to kill the Canaanites who are killing and butchering babies

and sacrificing them to Molech. God was not commanding the Israelites to kill people for the sake of not believing in God. This was not trying to spread, you know, Judaism or their religion.

This was simply trying to, as you say, Frank very well. This was not a genocide. This was a sinocide. And the difference between Old Testament violence and Jihad is Old Testament violence, God told them, you have a limited land to take over. This was the only land that they could take over. In fact, when the Israelites were going through other lands, and they could have taken over them, God commanded them to not touch anyone.

Why? God had given them limited land. For jihad, it's not limited land, it is global. Muslims are commanded to take over the whole world. It is not one land that's promised to them. It's every nation. And in the Old Testament is not just limited land, it was a limited time. It was a commandment for a limited time for the Israelites in the Old Testament. It was not an eternal commandment for every believer and every Christian to commit.

And that's why Christians today are not killing people for their faith. But in Islam, it wasn't a limited commandment where Muhammad says kill the infidel. It was an eternal commandment until their Mahdi, until the Messiah returns, Muslims are commanded to kill. So, Old Testament violence is not the same as jihad. We do not kill people now. We do not establish our laws and commandments. We are a peaceful religion.

In fact, our God is called the Prince of Peace. It is not the same at all.

FRANK:

You just mentioned the Mahdi. Can you explain that, Martin? What does that mean? The 12th Imam it's sometimes called. The fact that Islam has an eschatology as well. They have an idea of what's going to happen in the end times. Can you kind of give us an overview of that Muslims' end time and their messiah or their savior in the end time is our antichrist.

In fact, Muslims believe in Jesus Christ. A lot of people like, oh, Muslims don't believe in Jesus. No. Muslims do believe in a man by the name of Jesus. He's just not the Jesus of the Bible. We believe that Jesus is God. Muslims believe that Jesus is a prophet. We believe that Jesus was crucified. Muslims believe that he wasn't crucified, but Allah rescued him from the cross and someone died that resembled him. And we believe that Jesus was resurrected, but Muslims believe he wasn't resurrected because he never died.

**CROSS

I don't have enough **FAITH**

with Dr. Frank Turek **PODCAST**

And this is where their end time comes in, is we believe that Jesus Christ will come back as a second coming, riding as the king of kings and Lord of lords to save us from the enemy and take us as his bride to heaven. Muslims' end time and eschatology, they believe that Jesus is coming back. But this time, Jesus is coming back to break the cross. This is how much Muslims hate the cross. They, Muhammad, hates the cross so much that their eschatology they say that Jesus will come carry the cross and break it in front of the Christians to tell the Christians, I never, ever, ever died.

And this is why we believe their Jesus, or their Mahdi, or their Messiah, is the antichrist. Their coming is not the coming that we are waiting for. We are waiting for Jesus Christ to come as King of kings and Lord of Lords, as a slaughtered and resurrected lamb.

FRANK:

What is their Mahdi going to do according to their eschatology in the end times?

MARTIN:

Their Mahdi is going to come, and everyone is going to bow. Everyone's going to bow. Everybody's going to become a Muslim.

Everybody's going to submit. Jews and Christians are going to be killed. Jews and Christians, you're going to be killed. The liberals are going to be killed. The atheists are going to be killed. The whole world is going to be under Islamic rule and under Allah and under Muhammad. Everybody's going to say, Muhammad is the one true prophet, Allah is the one true God, and we're all going to die at the end.

FRANK:

Now, the Shia in Iran, do they, or I guess we can't say blanket-wise, but do some of them believe that if they can create a global conflict, they can cause the end times to come in and the Mahdi to come in and a global caliphate then to be reestablished?

MARTIN:

Yeah, of course. Muslims know that the end times will come once they establish a world, world brotherhood, or Ummah. Ummah is a brotherhood in Islam. They believe they have to take over the whole world. In Christianity, we are commanded, go into all the world, preach the gospel, baptize them, make disciples. That's our great commission. Their mission is to establish Sharia law across the whole world. And their end time is not coming until they do that.

**CROSS

I don't have enough **FAITH**

with Dr. Frank Turek **PODCAST**

Their end time is not coming until they wage war against the infidel, they wage war against the West, they kill every Christian nation, and they establish Islam. In fact, in Islam, Frank, they have two terms. One is called Dar al-Harb, and the other one is called Dar as-Salam. Dar al-Harb means house of war, and Dar as-Salam means house of peace. And the only way, every nation is split into two categories.

They're either Dar al-Harb, house of war, or Dar as-Salam, house of peace. And the only way for a nation to be a house of peace is for them to be submitted under Islam and under Sharia law. So Islam views every single nation as a dar al-harb, house of war, until they submit. So until America submits to Islam, it's a house of war. Until Canada, until Europe submits to Islam, it's a house of war. And then their end time will come.

And that's why they're so aggressive about taking over the whole world.

FRANK:

About two months ago, I had the great Bill Federer on the program. We talked about the history of Iran, and I read a section from one of his newsletters on what Sharia law is. It's a two or three-minute video. We'll put it in the show notes. But that got more than a million views. Because Americans don't know what Sharia law is.

People in the West don't know what Sharia law is. Can you give us an overview of what Sharia law is? Like, what are people in Iran dealing with on a day-to-day basis?

MARTIN:

Sharia law will destroy America. Sharia law is a cancer. Every nation and country that Sharia law touches, it destroys. It turns into violence, poverty, chaos, tyranny. You do not want Sharia law in your nation.

And for people that are like, oh, what's wrong with Sharia law? I mean, 70% of Muslim Somalians in America want Sharia law. Under Sharia law, this is Sharia law is kind of their Islamic divine law. Under Sharia law, homosexuals are executed. Under Sharia law, transgenders are thrown off buildings. Under Sharia law, if you're caught drinking or gambling, you'll be whipped. Under Sharia law, a man can have a child bride. Under Sharia law, a man can beat his wife up.

Under Sharia law, apostates are killed. And under Sharia law, if you speak about Muhammad, me and Frank right now, under Sharia law, will be killed for critiquing Muhammad. I don't want Sharia law in this country. I want the Ten Commandments to rule this nation. This is a problem,

Frank, that I have with the Muslims is you ask the Muslims in America who want Sharia law, who wants Sharia law? All the Muslims are like, yeah, me, I want Sharia law. Bring Sharia law to America.

Then you ask the Muslims, who wants to live in Afghanistan? The Muslims say, not me. Wait, who wants Sharia Law? Me, me, me. Well, who wants to live in Iraq? No Muslim wants to live in Iraq. That doesn't make sense. But then you ask the Muslims, who hates Christianity. The Muslims say, me. Who hates America? Me. They shout, death to America. Death to the United States. They burn our flag. But then you ask the Muslims, who wants to live in America? The Muslims say, me, me, me. This doesn't make sense.

You left your Muslim country under Sharia law to move to a Christian country that's blessed. Only then you want to bring Sharia law that destroyed your country into our country that's prosperous and blessed and Christian. And this is the thing. Muslims love the blessing of the God of the Bible, but they don't like the God of the Bible. They like the freedom that America offers, and Christianity offers. They just don't like the God that gave us that freedom.

And that's what I always tell Muslims. There are 54 Muslim nations around the world. Why do Muslims always migrate to the West and Christian nations? Muslims claim that Sharia law is the best thing for humanity, but they never moved to the Middle East under Sharia law. They always moved to Christian nations. And this is a slap in the face to Muhammad and a slap in the face of Allah. Because if Allah is so great, go live under Sharia law.

Go live under his blessing. But they live in a Christian nation because Psalm 33, verse 12 that says, blessed is a nation whose God is the Lord. And I want to tell every American, Muslims will always move to the West, because our country is blessed. We don't want Sharia law here. We want the Ten Commandments, and we want the Bible.

FRANK:

What are the three strategies that Muslims are using to try and take over America?

MARTIN:

Frank, I was listening to a Muslim imam.

That Muslim imam lives in Florida, and he said that Islam will conquer the West in three ways. Three strategies. Number one, Islam will conquer the West through the womb of the woman. The womb of the woman, They consider that as a war zone. They call it the jihad of the womb.

While we are aborting our babies, while we're killing 1 million babies every single year. While the feminist movement is telling women to not have babies.

While we have LGBTQ ideologies saying that men and men can get married, and we know that Adam and Steve can't have babies. Our population is on a decline. Our procreation is on a decline. We're not having babies. Meanwhile, Muslims are multiplying. Muslim families have four to five babies per family, and a lot of Muslim men have more than one wife. So we, as Christians, we're the largest religion at 2.7 billion Christians.

Islam is under us at 1.7 billion. But unfortunately, Christianity is not the fastest-growing religion. Islam is the fastest-growing religion. And they are growing not by conversion. They're growing by procreation. And it is time for America to stop killing their babies. We have to abolish abortion. We have to fight for the unborn. And it's time to get rid of this feminist Jezebel crap and tell women that babies are not a burden.

Babies are a blessing. Babies are a gift from the Lord. And it is time to get rid of homosexual marriage. For people to get married, as Charlie Kirk said, get married and have lots and lots of children. That's war. Number one, they will conquer the West through the womb of the woman. Number two, they will conquer the West through immigration. They are immigrating to the West, as I said before, by millions and millions and millions. Every single year they're coming to Australia, America, Canada, and Europe.

They are coming here, and we're inviting them in and we're committing suicide. And all the naive liberals are saying, open the borders, open the borders. Donald Trump is hateful. We shouldn't have borders in America. Even Christians are falling for it, saying, love the foreigner. Yeah, love the foreigner. But heaven has borders around it, so America should have borders around it. Heaven is a country with borders around it, with angels manning the gates day and night.

So America should have walls around it, with manning day and night. And not only that, heaven has legal paperwork called the Book of Life. So America should have legal paperwork to allow people in that actually assimilate to the country. And this is Islam. They're going to come here and not assimilate. They're going to immigrate here and not assimilate. But biblical immigration is about assimilation. So that's number two.

And we're going to unpack that third one further right after the break. As our mutual friend Charlie Kirk used to say, immigration without assimilation is an invasion. Ladies and gentlemen, why do you have a lock on your door?

They actually have a teaching. It's called the jihad of the womb. They view the womb of the woman as a war zone. The womb of the Middle East versus the West, the womb of the church versus the mosque. And they are outbreeding us. They're having more babies than us. And give it 30 years without evangelism, without converting anybody or preaching Islam will just outgrow Christianity. Number two, immigration. They are coming in. They never move to Muslim nations.

They always move to Christian nations. There's 54 Muslim countries, but they don't want to go there. They come to Christian nations. And number three, by using our freedom and tolerance against us. They come here and say, hey, America, you said freedom of religion, right? Let us do our thing. You said freedom of religion. You can't speak against us. You can't critique us, you can't speak. You said freedom. And all the Americans, we shut up. Why? We're scared to be called Islamophobic.

And this is a problem, Frank, is the Muslims looked at the homosexuals in the gay community, and they realized that when the gay community created the word homophobic, the church got scared to confront the sinners of homosexuality because they were too scared of being called homophobic. So the gay guys came up with that word, and it worked. The church backed down. We stopped preaching that homosexuality is a sin.

The Muslims looked at that word, and they're like, wow, it worked for the LGBTQ. Let's make up a word for us so America can tolerate us, and we can just chuck out a word whenever they attack us. So they came up with the word Islamophobia. So now whenever we speak about Islam, anybody questions Islam, anybody says anything, they simply call you Islamophobic. And now what's America doing? We're just shutting up.

We're sitting there while they're slitting our throat. We're sitting there while they come in. They invade our country. And this is the thing, Frank, is we think that Islam is just starting to invade our country. No, no, no. Islam has been invading America for a very, very, very long time. The Muslim Brotherhood in Egypt, they released a document. And the document was titled A Hundred Year Plan of How Islam Will Conquer North America.

And when you read the Hundred-Year Plan and you figure out what year we're in, Muslims are not up to year five of conquering America. They're not up to year 10 in their plan or strategy. They're not up to year 20. When you look at this Hundred-Year Plan, Muslims are up to year 35 of conquering America. The Americans and American church is 35 years too late to the party. And if we don't wake up now, our country will be Islamized, like my country, Egypt.

Egypt was Christian, conquered by Islam? Turkey was Christian, conquered by Islam? Yemen was Christian, conquered by Islam. Morocco was Christian, conquered by Islam. Europe was Christian. John Wesley and all the revivalists. And now is being Islamized. And next is America. And I'm warning America, wake up before it's too late.

FRANK:

By the way, ladies and gentlemen, we've talked about it on this program before. Islamophobia is a bogus term. Islam is not a race, it's an ideology.

There are people from every ethnic and racial group in Islam. That's not the issue. We're not against people because they're a certain skin color. We are against a behavior that will take your freedoms away. Not only your freedom of speech, not only your freedom of press assembly, but your freedom of religion. You will not be able to practice the gospel or preach the gospel.

If you don't think so, go to some of the countries I've been to. I've been to Iran. There's no First Baptist Church of Tehran. I've been to Saudi Arabia. There's no Calvary Chapel of Mecca. I just got back from Egypt, and my guest grew up in Egypt. It's very difficult to have a church in Egypt. Why? Because politically, they've ruled it out. So what are we supposed to do, Martin? What are we supposed to do as Christians?

How can we say we love Muslims, and we do, but still oppose the behavior of putting the nation under submission to Sharia law?

MARTIN:

I don't want Islam in my country. And I say this with courage and not backing down. I love Muslims, but I hate Islam. I love Muslims, and I want them to come to Christ, but I hate Islam with a passion.

And I would devote my life and ministry to fighting it. I want Jesus and not Muhammad. I want the Ten Commandments. I don't want Sharia law. I want churches in every street. I don't want mosques. I want the Ten Commandments, not Sharia law. I want Bibles in my schools, not Qurans. I don't want prayer mats in my schools. I want prayer back in our schools. I don't want my daughter to have to be forced to wear a hijab when Islam takes over.

I'm about to have a baby boy in a few months, and if I don't fight for America, my baby boy will be persecuted for his faith. This battle of fighting Islam, it is not even about our generation. It is about the next generation. This battle of fighting Islam is not about your generation. Your

generation will be fine, but give it 20 years, and if you don't wake up and America gets Islamized, your daughters will be forced to wear hijabs, your daughters will be raped, your sons will be killed, and your kids will not be free to preach Jesus Christ.

If we don't fight. If you're scared to be called racist, you're scared to be called Islamophobic. Get over yourself. Get over your pride. Get over your reputation. Put some courage on you. Be strong and courageous, as God said to Joshua, and go and fight for your nation. Frank, I'm sickened of hearing people tell me, you're too hateful. You shouldn't talk about other religions like that. We should accept all religions.

There's this idea of pluralism, syncretism, universalism. Let's get all the religions in the same bucket. Tucker Carlson he's angry that Donald Trump teases Allah. And Donald Trump said, may peace be to Allah, and Allah is the greatest and all that. I'm like, wait a second. We believe in one God. We believe there is one person who sits on the throne. I am allowed to mock false prophets.

I am allowed to mock false gods. I am allowed to destroy false idols. I am allowed to question other religions. I have freedom to critique any religion I want. And I have freedom to put my God above every other God. And this is the thing, Frank. Is everybody now this new effeminate, gay type of Christianity that wants to say it's okay, all the religions are the same? No, not all religions are the same.

Christianity is the only religion that is true. There is only one God. His name is Jesus. Muhammad is a false prophet. And if you're scared to say that you are a coward. And Jesus says, if you deny me before man, I will deny you before my father. We have to declare Jesus is the one true God and Muhammad is a false prophet.

FRANK:

But Martin, Martin, Jesus was such a nice guy. He accepted and loved everyone.

Your response?

MARTIN:

This is the thing, everybody we've created this gay, effeminate Jesus. Jesus was not effeminate. Jesus was not a coward. Jesus was not gay. Like, if that's the type of word you want to use. Jesus was bold and courageous. Jesus was not just described as a lamb of God. He was a lion of Judah.

And we have too many preachers who are so good about being the lamb of God, being gentle and meek.

But when was the last time you've seen preachers and Christians portray the image of Christ as a lion of Judah? The line of the tribe of Judah was bold and courageous. Jesus, by the way, flipped tables in the temple when they were bringing something in that wasn't biblical. And I'm allowed to get angry. The Bible doesn't say, don't get angry. It says, in your anger, do not sin. In fact, if you don't feel angry that Islam, is taking over America; there's something wrong with you.

If you don't feel angry that mosques are being built all across Texas, hundreds and hundreds of mosques are being built. If you're not angry that churches are being bought by Muslims. If you're not angry that Christians are turning to Islam. If you're not angry that Muhammad is being declared in Michigan. If you're not angry that the mayor of New York City is a Muslim. If that doesn't make you angry and a righteous indignation does not rise in you, I have to question your salvation.

And I have to question if the Holy Spirit is living inside of you. Because the Holy Spirit will not let you sit by while seeing your nation be lost to Islam. But a fire in your bones must rise. As Jeremiah said, God's word is a fire shut up in my bones. I am weary of holding it in. And every American, you must be weary of holding Christ in and not declaring him. Preach Jesus.

Be bold. Declare your faith. Stop being a coward, or we're going to lose this country.

FRANK:

Ladies and gentlemen, the entire Bible, from Genesis all the way to maps, the book of Revelation is political to a certain extent. There are false religions out there. Do not follow them. Come back to me. And that is done among the nations. That's done, obviously, among the churches.

Paul went out, and he talked about false teachers. In fact, almost every book of the New Testament, there may be, like Second or Third John that doesn't mention this, but almost every book of the New Testament talks about false teachers. Every single one. Jesus talks about false teachers. They went after the false teachers, did the apostles. did Jesus. He's going after the Pharisees, they're false teachers.

Yep. And when people tell me you shouldn't mock other religions, you shouldn't mock Muhammad, you shouldn't mock Islam, I'm like, brother, have you read what Elijah did in 1 King 17 to the prophets of Baal?

What Bible are you reading? Like, some Christians just need to open the Bible and realize what Prophet Elijah did when he told them, is your God in the toilet? Is your God in the toilet? I'm going to mock Muhammad exactly like Elijah mocked the prophets of Baal.

FRANK:

We're talking to a very wishy-washy guest here. His name is Martin Sedra. S E D R A. You need to check him out. He's normally down under in Australia, but he comes to America quite a bit.

Check him out there. And we'll have much more with Martin after the break. You're listening to I Don't Have Enough Faith to Be an Atheist with me, Frank Turek. Back in just a couple.

Today, hopefully, as always, we're telling you what you need to hear, not what you want to hear. We're talking about Islam and how the truth of Islam is the fact it wants to take over the world, not just in a religious sense, but in a political sense. And my guest is Martin Sedra, all the way from and down under. Originally from Egypt. His family was almost murdered by the Muslim Brotherhood in Egypt in 2006 because they were Christians who were preaching Jesus.

And if you're just tuning in on the American Family Radio Network, you didn't hear that story. Go look for the I Don't have Enough Faith to Be an Atheist podcast. You can hear this entire broadcast with my guest today, Martin Sedra. You're not going to want to miss the first three segments we've already recorded. We're going to talk in a minute about how to evangelize Muslims because we love Muslims. We want them to come to the saving knowledge of Jesus.

But before we get there, Martin, there's this curious thing going on in the culture right now. You seem to have very strange bedfellows. You have the LGBTQ community somehow calling themselves, at least many of them calling themselves gays for Gaza. I mean, if they were to go to Gaza, they'd be thrown off buildings. Why is there this crazy what sometimes called the Red-Green Alliance.

**CROSS

I don't have enough **FAITH**

How is that even possible?

MARTIN:

The Red-Green alliance, this unholy alliance between the liberals and the Muslims. They both are uniting over the common hate for Jesus Christ. They are both uniting over the common hate for Christianity. Both of them want to remove Christianity from the West. Both of them want to get rid of Jesus as king. Both of them. But I got good news for the Muslims and the liberals. You cannot dethrone Jesus because you did not put him on the throne.

And what the liberals need to understand about Jesus Christ, not only does he not lose, but he is the best thing that could happen for you. You see, this is a problem, Frank, is the gays say gays for Gaza. Gays for Gaza. Trans for Hamas. Trans for Zohran Mamdani. I'm like, brother, do you understand if a gay guy goes to Gaza, you'll be thrown off a building under Sharia law, transgenders are thrown off buildings or stoned to death.

You are crazy saying gays for Gaza. It's like saying chickens for KFC. Imagine seeing chickens protest and say, KFC, KFC. I'll be like, you are an idiot. And this is the thing. The Muslims are so smart because the Muslims have a lot of enemies. The Muslims have Christians as their enemy, Israel as an enemy, the liberals as their enemy. But the Muslims decided, for a smart move, they decided to hold hands with the liberals to get rid of the first enemy, the Christians and the Jews.

But once they get rid of the Christians and the Jews, then they're coming for the liberals. And I will tell this to people. The Muslims holy day is Friday. That's when they go to the mosque. The Jews holy day is Saturday. That's when they go to the temple. The Christians holy day is Sunday. That's when we go to church. And I tell people this. The people of Friday, the Muslims, first will kill the people of Saturday, the Jews. After they kill the people of Saturday, the Jews, next, after Saturday comes the people of Sunday, the Christians.

Once they kill the people of Sunday, the Christians, next will come the people of Monday, Tuesday, Wednesday, Thursday, which are the liberals, the atheists, and the feminists. So liberals need to understand gays for Gaza is the most stupid thing you can ever do. You should be grateful you're in a Christian country that gives you freedom. And we're not going to kill you. We're just going to tell you to repent and turn to Jesus.

There's so much great parody on Babylon Bee right now. I'm looking up, they do something on Islam almost every week.

Do not fear mass Islamic migration, says Pope behind 40-foot walls of Vatican City fortress. Here's one you'll love. Groundbreaking new study finds Islamophobia may be partially caused by Muslims killing people all the time.

MARTIN:

Probably. That's probably why I'm scared.

FRANK:

Muhammad upset as Democrats keep calling Islam a religion of peace.

MARTIN:

That's a good one.

FRANK:

Martin, what does globalize the intifada mean?

MARTIN:

Globalize the intifada? Kill everybody. Globalize the Ummah, the Brotherhood. Get rid of every infidel, every non-believer. Muslims do not believe in coexisting with anybody. When any American thinks that Islam is here to coexist, you are an idiot.

Islam has never coexisted with anybody. For 1400 years, Islam has not coexisted with any tribe, any nation, any people. Muslims, by the way. Muslims claim that they're not the problem, but Muslims have a problem with the Jews. Muslims have a problem with the Christians. Muslims have a problem with Hindus in India and Pakistan. Muslims have a problem with liberals. Muslims have a problem with every group, but for some reason, they're not the problem.

Guess who's the problem? The Jews are the problem. Israel is the problem. Muslims love blaming the Jews, by the way, because they love blaming it because the Free Palestine movement was the Trojan horse of how Islam entered America. The Free Palestine movement was a genius movement from the Muslim Brotherhood to get Americans to sympathize with the Muslims and shift their focus from the enemy being Muslims to being the Jews.

They tricked Americans. And now Americans don't think that jihadis are the problem. Now the Jews are the problem. They don't think that Islam is a problem. They think that Israel is a problem. Somehow, less than 1% of the world population, the Jews, are more of a threat than Muslims being 25% of the world population. Somehow, the Jewish people with one state under them is more dangerous than Muslims who have 54 states under them.

And this is the thing, the Free Palestine movement allowed Muslims to enter into America. Now Muslims are sleeping in bed with the Americans, and soon they will slit your throat.

FRANK:

Outside of that, immigration is great, ladies and gentlemen. Unchecked immigration. Sorry, this is just true, ladies and gentlemen. You might not like it, it's just true. Again, doesn't mean every Muslim believes this, but it does show, I mean, history shows once Muslims get a majority in terms of the populace, Sharia law is typically put into place, correct?

MARTIN:

Yeah, a hundred percent. And every American needs to know the teaching of taqiyyah in Islam. Some Muslims are very peaceful because they don't understand the Quran. But some Muslims are very peaceful because they are lying. Muhammad teaches in the Quran this teaching called taqiyyah. Taqiyyah is a teaching in Islam where you're allowed to lie for the sake of spreading Islam. You're allowed to lie. If you feel like the mission of Islam or your life will be in danger, you're allowed to lie.

You're allowed to look at an American and tell them, nah, man, I don't believe in Sharia law. Nah man, I don't want to establish Sharia law. Nah, man, I wouldn't kill the infidel. You're allowed to lie. And in fact, that's what Muhammad did. Muhammad in the Quran said that war is deceit. Muhammad teaches that. In fact, Zohran Mamdani, I think he was practicing taqiyyah when he said, I love the Jews, the Christians, and the trans. I think he's either not a Muslim or he's practicing taqiyyah.

Taqiyyah has been practiced for the last 1400 years by Muslims. In the 1400s, half a million Muslims in Spain converted to Christianity as a lie. They claim to be Christian. They converted to Christianity, they got baptized, they took communion only to lie to the Christians, to accept them into their churches. Later on, to want to turn against them. That happened in history. You just need to study history to realize that Islam lies in the process to take over your country.

FRANK:

All right, we're going to have to extend this program into the next podcast, where we'll talk about how to evangelize Muslims. And we're also going to talk about the Hamas-Israel situation a little bit more. But I want to ask you this, Martin, because you're very forceful in what you say, rightfully so, because it is a problem.

And again, this has only been verified for 1400 years, ladies and gentlemen. This has been going on since Muhammad, and you know, he died in 632. By 638, they had taken over the Holy Land. By 732, exactly 100 years after Muhammad died, they were repelled by Charles Martel in France. They'd gone all the way across Northern Africa, across the Straits of Gibraltar, into Spain, and into France.

If Charles Martel had not repelled the Muslims, we'd probably all be speaking Arabic today. But the conquest continues today, ladies and gentlemen. The question is, as Americans, as Australians, as Europeans, who still have the freedom to vote and still have the freedom to make political changes. We know we have to change the human heart. We know that's what Jesus can do. And evangelism is so important.

But we'll have to spend more time in the next program to discuss that. But from a political perspective, what should Christians and all people who are concerned about freedoms be doing right now, Martin, in order to ensure that we maintain those freedoms and don't allow Sharia law to take over free countries?

MARTIN:

Christians must go out and vote their faith.

Every Christian, go out. Your freedom was given to you, so use it. I am fascinated by the amount of Christians I meet in America who told me, I just didn't vote this time. I just didn't like anybody, so I didn't vote. What do you mean you didn't vote? You have freedom, but from God, and the government allows you to vote. You live in a democracy. Go out and vote. And I will tell Americans, don't vote your skin color, vote your faith. I don't care if they're black, white, Asian, Arabic.

I don't give a crap what color skin color they are. If they don't have policies that align with the word of God, you cannot vote for them. If you voted for Kamala Harris because she is apparently a black woman, you that is what you call ethnic idolatry. You worship your skin color above your God, above your faith, above the scripture. Don't vote your skin color, don't vote your gender, don't vote your personality, vote your faith.

What is the candidate that best aligns with the policies of the Scripture? Vote for them. Let's get Christians back in politics. Get involved in politics. Stop with this lie that Christians don't get involved in politics. As Frank said, the whole Bible, from Genesis to Revelation, the whole background and the scene of the Bible is political. Elijah spoke to King Ahab. John the Baptist spoke to Herod. Jesus spoke to politicians.

Every preacher and prophet in the Bible spoke to kings and politicians. In fact, Paul said I must go to Rome. Paul knew that the most influential place was Rome. And if he impacted the politics of Rome, the whole world will be impacted. And I want to tell you, coming from Australia, America is a big brother. Whatever happens in American politics impacts Canada, Europe, and Australia. Please, America, vote your faith so we don't lose the whole West.
